

Visitation Policy

As we continue to monitor the number of COVID-19 cases in our community, we also continue to adapt our policies and procedures as appropriate.

Visiting Hours for Non-COVID-19 patients: 7 a.m. – 7 p.m.
Visitation for COVID-19 patients must be scheduled.

Visitation Guidelines for All Patients:

- One visitor allowed at a time for each patient.
- All visitors are required to wear a multi-layer mask when in the facility. If you do not have one, one will be provided.
- All visitors will be screened for a fever prior to entering the facility.
- All visitors enter and exit through the main hospital entrance.
- Visitors sign in and out at the main entrance.
- Visitors may access cafeteria and concession areas, but otherwise should remain in the patient's room they are visiting.

Visitation Guidelines for Non-COVID-19 patients:

- One visitor may stay overnight in a patient's room.

Visitation Guidelines for COVID-19 Inpatients:

- Patients that are being cared for in the modular units will not be eligible for visitation.
- Each patient will be evaluated by a physician to determine eligibility for visitation. If patient is eligible, the patient's nurse will contact family to make arrangements.
- Visits must be scheduled with the nurse.
- One designated family member may schedule two visits per week, 30 minutes each. This visit may be in-person or virtual depending on physician evaluation.
- All visitors must wear the appropriate personal protective equipment, which will be provided at visit.

Outpatient Visitation Guidelines:

Patients coming for an outpatient test or scan may have one visitor accompany them, if medically necessary.

Below exceptions may apply:

- Patients at the end-of-life.
- Minors under age 18 may have two parents or guardians.

Children under 18 still are not allowed to visit except in end-of-life cases.

We appreciate your support and patience as we work to protect our patients, visitors and community. Please know all decisions are made with safety as our top priority and modifications will be made to the visitation policy as appropriate.
