

# Visitation Policy

All visitors are required to wear a mask.

**Visiting Hours: 9 a.m. – 7 p.m.**

**Weekends 9 a.m. - 5 p.m.**

## **Visitation Guidelines for Non-COVID-19 Patients**

- All visitors are required to wear a mask at all times. If you don't have one, one will be provided.
- All visitors will be screened prior to entering the facility.
- One visitor allowed at a time for each Non-COVID-19 patient.
- If needed, one caregiver is allowed to stay overnight.
- If visiting a patient who has been admitted to the hospital, please enter/exit through the main entrance.
- All visitors will be asked to sign in and out.
- Visitors may access cafeteria and concession areas, but otherwise should remain in the clinical unit they are visiting.

## **Below exceptions may apply:**

- Patients at the end of life.
- Obstetric patients may have one partner and a birth supporter during delivery and one partner and two visitors after delivery during visiting hours.
- Minors under age 18 may have two parents or guardians.

Please note: Children under the age of 18 are not allowed to visit except in end-of-life cases and births of siblings. It is also strongly recommended (for their own safety) that people over age 65, anyone with a chronic medical condition and pregnant women do not visit the hospital except to receive care.

## **Emergency Room Visitation:**

ER visitation at our Sumter facility will now allow for one visitor per Non-COVID patient that must stay with the patient during the visit unless otherwise directed by the clinical care team.

We appreciate your support and patience as we work to protect our patients, visitors and community. Please know all decisions are made with safety as our top priority and modifications will be made to the visitation policy as appropriate.
